

# SDG INDEX

We understand the significance of the United Nations 2030 Agenda for Sustainable Development and the call-to-action presented by the UN Sustainable Development Goals (SDGs). These goals urge governments, businesses, and civil society organizations to address the critical challenges facing our world today. We recognize the pivotal role that these goals play in promoting fair, inclusive, and sustainable development. We take pride in outlining our contributions to each SDG and welcome our customers, suppliers, and stakeholders to join us in our commitment to advancing the shared blueprint for peace and prosperity for people and the planet, now and into the future.
